

THE *Great* BRITISH SPORTSCAR

DONOR CAR AND PARTS FOR THE MARCOS MARTINA

The donor car used by Marcos is the Ford Cortina Mk IV or V, which uses the 1600 or 2-litre Pinto engines. You can also use the Ford V6 2.3 engine and radiator. Marcos recommend you buy a Cortina which is running and of a suitable standard.

When ordering your car, remember that Marcos fit the engine mounts to the chassis so we need to know the engine specification.

List of parts to be taken from the donor vehicle

- Front suspension with sub-frame
- Steering rack
- Steering column, lock, cowls, switches and stalks
- Radiator and top hose
- Pedal assembly with servo and master cylinder.
